Stephanie/Scott:

Attached is an initial partial submission of validated data associated with the RM 10.9 RA Pre-dredge Baseline Water Quality Monitoring activities performed by CH2M Hill pursuant to the RM 10.9 RA Water Quality Monitoring Plan. This deliverable contains all but the three SDGs (1 from CAS/AL and 2 from SGS/AP) that are still in the process of data validation.

Please note that the attached zipped data files have been provided as a "ZZP" file and the file extension should be re-named "zip" to open it (in the event EPA's e-mail system rejects this type of file).
